SUMMARY

Professional with 3+ years of experience in front-end development. Strong background in building web applications and admin panels, as well as in redesigning and refactoring existing codebases.

EDUCATION

Master of Computer Applications   Indore, MP
Dr. A.P.J. Abdul Kalam University   *2021 - 2023*

Bachelor of Computer Science   Gwalior, MP
Govt. Adarsh Science College   *2015 - 2019*

PROFESSIONAL EXPERIENCE

Web Developer   Dec 2022 - Present
FitPeo Tech Private Limited   *Remote*
- Developed and maintained six internal web portals supporting over **50,000** global admins, patients, providers, and caretakers by writing reusable React components and building end-to-end features.
- Published a large feature as a private NPM package to reuse it across all web portals.
- Introduced strong typing for existing JavaScript codebase, resulting in 30% reduction in runtime errors.
- Implemented TypeScript and incorporated unit testing framework (Cypress with 90% coverage), enhancing code quality and application stability.

Freelance Web Developer | profile ↗   Feb 2021 - Nov 2021
Freelancer.com & Private Clients   *Remote*
- Developed dynamic websites as per the clients' requirements.
- Achieved a **4.6-star** rating on my Freelance profile from clients.

Web Developer   July 2020 - Dec 2020
Binary Systems   *Gwalior*
- Successfully developed an e-commerce web app using PHP, MySQL, and integrated the Paytm Payment Gateway.

PROJECTS

Note: According to the nondisclosure agreement (NDA) in place, live URLs for FitPeo portals cannot shared publicly.

Super Admin, Admin, Patient, Caretaker & Provider portals
- Technologies used: ReactJS, RemixJS, TypeScript, Redux, Antd, MUI, Tailwind, Cypress.
- Completely redesigned and refactored code, completed business requirements, and integrated APIs in all portals.
- Improved user experience across all platforms by addressing design flaws & enhancing overall usability.
- Reduced average page load time by 35% through code optimizations.

FitPeo Website | *NextJS, Redux, MaterialUI, Tailwind*   visit site ↗
- Successfully redesigned and redeveloped the brand website using MUI.
- Delivering a visually appealing and modern online presence that effectively showcases FitPeo's offerings.

TalkGram | *Socket.io, ReactJS, Redux, MUI, ExpressJS, MongoDB*   visit site ↗
- Developed a chat web app to help users connect and share with others, including a group chat feature.
- Implemented Google OAuth and sms OTP verification for custom registration.
- Integrated with web Socket to make it real time conversation and notifications.
