Summary

Software Engineer with 4+ years of full-stack experience. Skilled in building scalable JavaScript/TypeScript web apps, integrating Generative AI, and managing Google Cloud deployments.

Education

Master of Computer Applications — Indore, MP
Dr. A.P.J. Abdul Kalam University — *2021 - 2023*

Bachelor of Computer Science — Gwalior, MP
Jiwaji University — *2015 - 2019*

Professional Experience

Software Engineer - JavaScript — May 2025 - Present
Aviato Consulting — *Remote*

- Developed **ReactJS/NextJS** web applications with integrated GenAI capabilities for enhanced user experience.
- Managed cloud infrastructure and application deployments on Google Cloud Platform (**GCP**) utilizing Terraform, Cloud Run, Firebase, Cloud SQL, and GCS.
- Automated complex business workflows and data pipelines using **N8N**.

Web Developer — Dec 2022 - Apr 2025
FitPeo Tech Private Limited — *Remote*

- Developed 6 internal ReactJS & NextJS web portals for **50,000+** global users and published reusable features as private NPM packages.
- Migrated legacy JavaScript codebase to TypeScript, reducing runtime errors by 30%.
- Implemented Cypress unit testing with 90% coverage, significantly enhancing application stability.

Projects

Note: According to the NDA in place, live URLs for portals cannot be publicly shared.

Newsary (PrTech) | *NextJS, TypeScript, Tailwind, GenAI, N8N*

- Built a PR platform featuring an AI-powered chat interface using Next.js.
- Implemented server-side AI processing to interpret user inputs and orchestrate automated workflows using n8n.

Cleverbean & Loomi (EdTech) | *ReactJS, RemixJS, NextJS, TypeScript, Redux, Shadcn, Tailwind*

- Developed an automated written assessment feature to evaluate and track student progress effectively.
- Implemented Google OAuth verification for registration.

Super Admin, Admin, Patient, Caretaker & Provider portals

- Tech: ReactJS, RemixJS, TypeScript, Tailwind, Cypress.
- Completely redesigned and refactored code, completed business requirements, and integrated APIs in all portals.
- Optimized application performance, reducing average page load time by 35%.

FitPeo Website | *NextJS, Redux, MaterialUI, Tailwind* — visit site

- Successfully redesigned and redeveloped the brand website using MUI.
- Delivering a visually appealing and modern online presence that effectively showcases FitPeo's offerings.

Certifications

Google Cloud Associate Cloud Engineer - View Credential

Technical Skills

Languages & Database: JavaScript, TypeScript, HTML/CSS, MySQL, MongoDB, PostgreSQL, Prisma
Libraries & Frameworks: React.js, Next.js, Remix.js, Node.js, Express.js, Tailwind CSS, Redux, Material-UI
Cloud & DevOps: Google Cloud Platform (GCP), Docker, Terraform, N8N, Git, Cypress, Azure DevOps
Other Skills: Generative AI, Prompt Engineering, Problem-solving, Ownership

Declaration

In my opinion and knowledge, the information provided above is true and correct.
